REPORT NO. [REDACTED]

## INFORMATION REPORT

CD NO.

25X1A

COUNTRY Yugoslavia DATE DISTR. 9 July, 1951

SUBJECT Yugoslav Defense Measures on the Hungarian Border NO. OF PAGES 1

PLACE ACQUIRED [REDACTED] NO. OF ENCL. (LISTED BELOW)

DATE OF INFO. 25X1A SUPPLEMENT TO REPORT NO. 25X1X

1. On the Sid-Vukovar highway, at a distance of five or six kilometers from Sid, holes are currently being dug which are about one meter deep. The traffic from the highway has temporarily been deviated to a road strip running parallel to the highway for a length of approximately five-hundred meters. It is very likely that these excavations are intended to serve as anti-tank blocks in the event that the surrounding area should be mined.
2. In Vukovar, an old anti-tank blockade is reported to exist. It extends between the road and the railroad station, and is made of cement blocks in the form of pyramids. It is allegedly very efficient. The surrounding area is marshy.
3. On the Slatina-Virovitica-Djurdjevac highway, to the right of the highway, are a number of crude field emplacements for automatic weapons.
4. The Djurdjevac-Bjelovar highway on the slopes of the Drava valley, has been blocked by at least three types of field fortifications, such as trenches one meter deep, automatic gun emplacements, and camouflaged platforms for anti-tank guns. There are no signs of barb wire entanglements. The fortifications extend five kilometers in depth, and skirt the wooded area.
5. On the Krizevci-Koprivnica road, just a few kilometers beyond Krizevci, three types of field fortifications similar to those on the Djurdjevac-Bjelovar highway are to be seen. They are located in a hilly region spotted with small wooded areas, and extend along the entire road, as far as Koprivnica. These fortifications constitute a number of isolated gun emplacements for automatic weapons, and for anti-tank guns.
6. At Koprivnica, numerous field fortifications are to be found along the entire perimeter of the town. They are scattered in depth, and stretch as far as the small hills alongside the Koprivnica-Ludbreg highway.
